

A Letter To Christmas

*Written, Produced, Mixed and Mastered by **Elsa Mickayla**.*

Lyrics

First of all, I just wanted you to know
That lately I've been feeling all things are good
Maybe it's the season, maybe it's just
I finally know what happiness feels like

Cause you came to me
Just like in a dream
Oh when I was stranded, babe
I never knew that I needed you
Like I do
Just know that I shouldn't be fighting this

Christmas please come and just stay
Ooh just stay
Christmas please come and just stay
Ooh just stay
Christmas please come and just stay

Lately, I've been feeling all kinds of good
And I just wanted you to feel the way I do
Christmas brings joy to my heart
You know the funny thing is you
You make me sad when I miss you

Cause you're the reason that I'm here
You're the reason that I hear
You're the reason that I live and breathe
You're the reason that I glow
Underneath the mistletoe

Live every moment like it's Christmas day
Just wish that it would come a day

Where you'll stay

Ooh just stay

Christmas please come and just stay

Ooh just stay

Christmas please come and just stay
